Re: Freedom of Information Act Request Concerning the Cayuga County Groundwater Contamination Superfund Site

Dear Steve:

This letter is in response to your e-mail request dated March 16, 2006 requesting a copy of the final report "Volatile Organic Compound Source Area Assessment Cayuga County Groundwater Contamination Site" prepared by Lockheed Martin/REAC for the United States Environmental Protection Agency and any subsequent reports on the topic.

By letter dated March 21, 2006, I forwarded the requested report to you and informed you that the additional information you requested would be forwarded under separate cover. Enclosed please find reports dated May 18, 2004, September 13, 2004 and January 7, 2005 which are responsive to your March 16, 2006 request.

The cost for document search and reproduction of these documents, including the December 12, 2003 report previously submitted will be \$74.35 (309 pages at \$0.15 per page and one hour of professional level search time at \$7 per quarter hour).. By your e-mail and in our telephone call, you assured me that payment would be received. Based upon that assurance, I am forwarding copies of the additional documents requested at this time so that your receipt of the report will not be delayed pending processing of your FOIA request and the preparation of an invoice.

I will have an invoice prepared for payment. Please do not submit payment until you have received such an invoice.

Sincerely yours,

George A. Shanahan  
Assistant Regional Counsel  
New York/Caribbean Superfund Branch
